Re: EPS Supplier Approval -
Plant Location: 701 Sargent Drive, Fredericktown, Missouri

Dear Mr. Geile:

We are in receipt of your confirmation letter stating you are in compliance with the EIMA Guideline Specifications for EPS Insulation Board.

In review of this letter and the information provided by Underwriters Laboratories, Inc., as your third party inspection agent, Parex has listed Versa-Tech, Incorporated as an approved supplier of standard EPS board to distributors in your area.

This is also to notify you that the sample drainage boards that you submitted to Parex meet within the specification requirements for the Water Master drainage boards and you are approved as a Water Master Board supplier. The test results are enclosed for your review. Parex reserves the right to discontinue the use of your insulation board with a 30-day advance notice and with no reason or explanation for doing so and no liability for costs that may be incurred by use as a result of such discontinuation. A copy of the signed licensing agreement is enclosed for your records.

See Section II, Packaging for instruction on the packaging. Bags are available to authorized EPS manufacturers from:

Horizon Packaging
6224 Ringgold Road
Chattanooga, TN 37412

Attn: Sue Scott
Phone: 423-894-6050
Fax: 423-894-7494

Sincerely,

ParexLahabra, Inc.
